1. Receipt is acknowledged of the amendment filed on 4/7/2003.
2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 22-30, 32, 34, 35 and 37-40 are rejected under 35 U.S.C. 103(a) as being unpatentable over British Publication '827 in view of Krogker et al.

Note the previous discussion in paragraph 3 of paper number 14, mailed 1-13-2003. Note that fluid flowing through conduit D flows solely through the openings forming this conduit.

4. Applicant's arguments filed 4-7-2003 have been fully considered but they are not persuasive. Contrary to applicant's contention, the fluid passing through the conduit of publication '827 does flow solely through to connecting conduit to the degree claimed. As to Krogker et al., applicants have failed to argue the teaching in Krogker of using user selectable discrete settings.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3673

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication should be directed to Mr. Graham at telephone number (703) 308-1113.
